

Academic Performance

We are and have been very successful in meeting curricular outcomes. We are working hard to have all students reading at grade level and are using benchmarks through running records to track success. We are also continuing to use First Steps in Math diagnostics. As a staff, we are continuing to meet in small groups called professional learning communities(PLC's) to better direct our focus and strategize as to how we can better assist our students specifically in improving their literacy and numeracy skills. We have made steps forward and have established common assessments we are going to gather as evidence and then will analyze this data to better determine how to plan for our students not only as a group but as individual learners. As we differentiate instruction we anticipate academic performance to show continual growth. Our students' success is a tribute to our entire educational community which includes our educators, our students, our parents and all supporters of our education system. Parents are able access students' academic and personal growth through our student portal. Teachers continue to do their utmost best to be transparent in their grading, thus ensuring a clearer overall picture of a student's academic performance.

Extra-Curricular Opportunities For Students 2015-2016

- | | |
|---|----------------------------|
| Badminton Teams | 4 Volleyball Teams |

Summation:

The above is a compact profile of the many positive things happening at Melita School. Please feel free to contact the school at any time. Currently we don't have an active PAC. If you would be interested in forming a PAC group please contact the school. Parent Advisory traditionally has met the third Monday of every month at 7:00 pm.

Community Report

Telephone: 1-866-422-5113 or
1-204-483-6293

The following report for parents summarizes the 2015-2016 school year at Melita School. It is our hope that by informing all stakeholders involved in creating an educational environment, that we will enable our students to achieve the best education possible in our community.

Melita School Mission

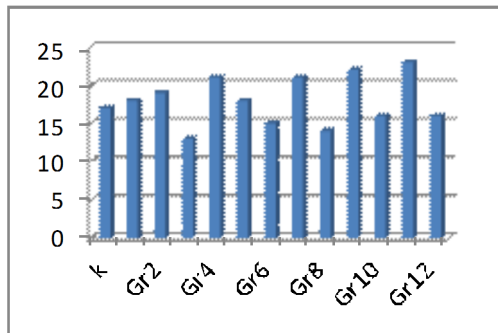

To provide a supportive learning environment where students are empowered to achieve academic and personal goals to become responsible citizens.

Demographics

We are a kindergarten to Grade 12 school with 235 students. We have the equivalent of 17.56 full time teachers being filled by 20 dedicated teachers. They are assisted by a total of 7.0 full time EA's being filled by 8 equally dedicated Educational Assistants. We also have a .50 time Career/Guidance counselor. Everyone strives to do their best to offer our students the best learning environment possible to meet the educational outcomes of the present curricula and societal demands. We have 1 full time custodian and 2 part time sweepers as well as a full time librarian, a full time Administrative Assistant, and a part time secretary. We also have 2 dedicated individuals who continue to run the canteen, and we also continue to have 5 bus routes.

Enrolment 2016-2017

Courses

We offer a wide variety of courses in Melita School. These courses consist of all the requirements plus a good variety of optional choices. We continue to focus on maintaining our current electro-labs as well as continuing to explore other options that will enhance the overall school experience for learners that are more successful with hands-on learning. We boast an excellent band/music program that extends to our senior years as well as a Jazz band program and a drama program. We also offer PE to Grade 12, which is part of the regular credit system as well as computer courses and a Life Work course. Our Life Works course offers our students the opportunity to learn about different careers while at the same time learning the skills of resume writing and interview skills. Students also have access to additional courses being offered by other schools in our division over video conferencing. The Senior Years Apprenticeship Option and Career Technology are also other options that are available in Melita School. Students who have finished all requirements for Gr. 10 and are 16 years of age are eligible to apply to this program. In the Apprenticeship program, students work for a journeyman at any recognized trade. In return, students are paid by the employer and receive school credits at the same time. These credits also count towards community college hours if the student continues to pursue this trade. Students also have access to courses that do not fall under the Apprenticeship umbrella, but instead are under the CTS umbrella. This is where students are learning a trade or marketable skill — these being Management Skills 40S and other Applied 40 level credits.

We have a growing number of students who are accessing credits through Apprenticeship or CTS. Thanks to our community businesses who have committed to taking our interested students and training them.

School Goals 2016-2017

1) Student Engagement and Success Strategies

- *TTFM data
- * engagement data
- *student feedback

2)Improving Reading Levels Strategies

- *Comprehension/guided reading programs
- *Reading Recovery
- *Literacy Intervention Programs
- *Benchmarks-running records
- *Daily 5 and Daily Café
- *Flexible Groupings
- * In house staff meetings to strategize and plan (PLC's)
- *Before school reading program

3)Improvement in Math Skills Strategies

- *First Steps in Math- Professional Development
- *Flexible groupings for Math
- *PLC's in house for staff planning
- *Staff attendance to MRLC with focus on numeracy
- * The continued use of Numeracy coaches
- *Increased class time devoted to mental math

4) School Restitution

- *Continue using the language of restitution
- * Use of restitution kits and lessons within our classrooms
- *Continued training for our staff
- *PLC meetings to discuss strategies

5) Social Justice Exposure

- *Promotion of social justice groups
- *Day of pink activities
- * We Day

School information can also be accessed at our website, which can be found at:

<http://schools.shmb.ca/mci/>

We publish a monthly newsletter that is posted to our webpage for the students, parents and community.
